Transpose, TimeToStart, and ChordPlayer software now free!

As of November 2017, our three software utility programs, Tray Transpose Tool, TimeToStart, and ChordPlayer, are now free for you to download and use. They were designed and tested on older versions of Windows, but will still work fine on newer versions as long as you follow some fairly easy steps listed here:

<http://www.simusic.com/kb/index.php?action=artikel&cat=8&id=3&artlang=en>

You can find the programs linked from our main page.

We will be charging for software support on a per-incident basis, but there is no charge for use.
